PROFILE SUMMARY

I'm a dedicated full-stack web developer with a strong emphasis on front-end development, boasting over 3 years of language experience in JavaScript, particularly specializing in MERN stack development. Despite the minimum industrial experience, I'm proficient in building dynamic and responsive real-world websites, showcased through hands-on projects and a React developer internship. I'm also familiar with UX design, Agile, and software testing practices and well-versed in research methodologies as a current research assistant. Currently, I'm actively seeking full-time software tester/ web developer roles to apply expertise and deliver high-quality software. Eager to leverage my diverse skill set and passion to contribute to impactful software products.

EDUCATION AND CERTIFICATIONS
